

# Life in *Fifth* Grade

Here are our thoughts about Field Day!

Field day was really fun. It had a bunch of games like the pie pan race (that one is my least favorite), and my favorite was chicken pot pie. You throw the ingredients of a chicken pot pie into a kiddie pool. My second favorite was the minefield game. It was cool because one of the two people was the secret agent and the other the spy. The spy had to make the secret agent get through the minefield. ~**Tucker**

Field day is a day when we are outside all day and we do a lot of fun games outside. My favorite part was when we got to play *Pizza Delivery*. My least favorite part was when we had to go inside. ~**Katelyn**

My favorite part of field day was the game "Cherry on top" because it took teamwork and good sportsmanship. The activities very challenging but very exciting, and hot. They were all different. There were water games, running activities, strategy activities and more! ~**Colin**

The Field Day at NHCS was absolutely fantastic! One of my favorites was the Grand Prize game. We sure have some star athletes here at NHCS. The sponge relay was also fun. The object of the game was to fill your jug using only a sponge and some water. The cherry on top sure was a sweet treat for the kids. They got ice cream sundaes! ~**Mia L**

Field day was really exhausting to be honest. Yes, I did enjoy it considering most stations had treats and water. However, I was wiped out by the time we were done, and even if it was fantastic I had no more energy at home. The tattoos were so difficult to use that I ended up with a purple sparkle blob. Overall field day was fun, but I was very dreary by the end of the day. ~**Vanessa**

I am going to tell you what I liked about field day and what I did not like about it. What the best part was the pizza delivery. The least favorite part was the ducky game. The other game I liked was the chicken pot pie game. ~**Hannah**

One of the best parts of field day was the ice cream. At the end of the "Cherry on Top" activity, the class got some ice cream, which was really yummy. ~**Beau**

Monday we had Field day it was super-hot and humid! But it was super fun our Field Day was held at NHCS (New Hampton Community School). Do you have a Field Day at your School? One of our schools Field Day activities was Mission Impossible which is where you guide a person through a Minefield with only your voice! Well that's it for the daily narwal hope you enjoy the rest of your school year. ~**Henry**

# Life in *Fifth* Grade

My favorite part of field day was when we got to get tattoos. There were a bunch of different ones. Some were superheroes, food, and glittery words. The best part about it was everyone got one. ~**Emma Ga**

Field Day was really fun! One of the activities I liked was Mission Impossible. Two people partnered up, then one was blindfolded, and the other person guided them through a bean bag lane. Another great activity was the Sponge Relay. We split up into two teams, then competed to get the most water in a gallon jug via sponge. My favorite activity was Pizza Delivery. We had to carry around a frisbee flat while trying to knock off other people's frisbees. Field Day was great this year! ~**Nick**

Field day is a really fun day for NHCS students. We play fun games like Grand Prize, where you are split into two teams and try to throw little ping-pong balls into five buckets. Another game is Pie Relay. Again you and your classmates are split in two teams, but this is a water relay. You have to work with your team and use pie pans to fill a bucket with water. But there is a catch, the pie pans have holes in the bottom. Those are just a few out of many, many field day games! ~**Mia D.**

On field day we had so much fun! We had ice cream and ice pops. We played cherry on top and that was fun. The way you play it is You would grab a foam ball and sprint to a cone and balance it on the cone. Then we would sprint back and fist bump the other person. I hope you enjoy the rest of your school year. ~**Qu'Aisia**

Field Day was awesome. We did a ton of activities. My favorite activity was Cherry on Top. We had an amazing time playing the game and after got Ice Cream. We had a fun time doing everything. We had lunch outside which was also cool.(On a hot day ironically) I will miss Field Day in 6th grade. ~**Carter**

On (Monday) June 18 we had field day. One of my favorite activities was when we played pizza delivery. It is a game when you smack a frisbee out of someone's hand. We also played cat and mouse. It was when the cat would crawl on top of the parachute and try to tag the mouse that was crawling underneath the parachute. ~**Skylar**

My favorite part of field day was having ice cream. My least favorite part was going outside. ~**Caitlyn**

I find that most of the classes work together to win the relays. I participated in pot pie. It was fun, I worked with a partner. The rubber duckie relay was very fun, I got soaked. ~**Emma Gr**
