Life in *Fifth* Grade

Thanks to the New Hampton Garden Club, our class had the opportunity to watch a presentation about weather by Meteorologist Hayley LaPoint. One of the highlights of her presentation was her inspirational story about how she was drawn to weather. She told us how in Kindergarten she saw a book on the shelf that had a tornado on it. This sparked her curiosity about how they were formed and why. Even though people thought it was “weird” that she was so interested in them, this didn’t stop her.

She told the kids to find their inspiration and follow it!
